## LIBRARY RENEWAL PROJECT

On November 8, the voters of Ames will be asked to consider a bond referendum for the Library Renewal Project in an amount not to exceed \$18 million. If passed, the bonds would be used to fund a \$20 million library expansion and renovation project, \$2 million of which will be raised through philanthropic donations.

The goal of the Renewal Project is to create the library that Ames deserves. This includes designing flexible space to accommodate current and future needs, creating appropriate areas for children's services, improving safety and security, and ensuring that the library is accessible to every Ames resident.

This project is the result of five years of study, discussion, and community feedback on the current and future needs of Ames Public Library. The proposal would increase the size of the current library from 48,000 square feet to 77,455 square feet while renovating and revitalizing the entire building. The added space would come from a variety of sources, including a two story addition on the vacant lot adjacent to the building, a second level over areas that could support it, and filling in many unused areas of the lot.

For more information—including artist renderings, a sample floor plan, and FAQs—visit [www.amespubliclibrary.org](http://www.amespubliclibrary.org) and click the "Library Renewal Project" button.
